News From your Executive Director.....

2017 Valentine's King and Queen

This year's Valentine's Day King and Queen have been crowned.

Hopefully they can fulfill their duties of King and Queen.

These duties include giving lots of hugs, being kind to others, and always offering smiles.

Congratulate Beatrice and Gary the next time you see them!

-Stephanie

March Aflutter

On March 14, Learn About Butterflies Day, no one expects you to learn about all 20,000 types of butterflies in the world. You might, however, be amazed to learn that the Queen Alexandra's birdwing butterfly, found in Papua New Guinea's rain forest, has a wingspan of one foot. As a caterpillar, this species eats the poisonous pipevine plant that other animals won't dare eat for fear of being poisoned. The glasswinged butterfly of Central and South America has transparent wings. North America's question mark butterfly has a silver mark on the underside of its wing that looks just like—you guessed it—a question mark. Otherwise, it is cleverly disguised with a camouflage pattern that makes it look like a dead leaf. Love butterflies? Plant a butterfly garden with plants that attract these beautiful creatures.

Friends and Family

**Please join us on
Friday March 17th from
11am- 1pm for our
Friends and Family
Dinner will be
Cornedbeef and
Cabbage.
Please bring a dessert
to pass!**

Business News with Kim...

What is your favorite Season??

Earth spins around the Sun at an angle, which is why we have different seasons.

Most modern day calendars around the world reflect this and divide the year into 4 seasons: spring, summer, fall (autumn), and winter.

The dates of when these seasons begin and end, vary depending on who you ask.

People in the Southern Hemisphere, like Australia and New Zealand for example, consider September 1 as the beginning of spring.

The Irish, on the other hand, begin spring on February 1 when they celebrate St Brigid's Day. Some cultures, especially those in South Asia have calendars that divide the year into 6 seasons

'BDFDSI' instead of the 4 that most of us are familiar with.

To be consistent and to make weather forecasting easier, meteorologists divide the year into 4 meteorological seasons of 3 months each:

- Spring - from March 1 to May 31;
- Summer - from June 1 to August 31;
- Fall (autumn) - from September 1 to November 30; and,
- Winter - from December 1 to February 28 (February 29 in a leap year).

Seasons in the Southern Hemisphere are opposite to those in the Northern Hemisphere. For example, under the definition of astronomical seasons, the **June Solstice** marks the start of summer in the Northern Hemisphere, but is the start of **winter** in the Southern Hemisphere. The same rule applies for the other 3 seasons.

The meteorological seasons in the Southern Hemisphere are also opposite to those in the Northern Hemisphere:

**Youthful U

Jill is here Monday
from 9a-4p,
Wednesday
from 9a-3p, and
Friday and Saturday
from 9a-1p
Jill can be reached at
1(815) 213-1159

- Fall (autumn) - starts March 1, ends May 31;
- Winter - starts June 1 and ends August 31;
- Spring - starts September 1 and ends November 30;
- Summer - starts December 1 and ends February 28 (February 29 in a Leap Year).

Seasons occur because of the tilt of the Earth's rotational axis, which is about 23.4 degrees. Around the June Solstice, the Northern Hemisphere is tilted toward the Sun. This causes summer there. The Southern Hemisphere, on the other hand, is tilted away from the sun and therefore, experiences winter. The opposite occurs around the **December Solstice** when the Southern Hemisphere is tilted toward the Sun, while the Northern Hemisphere is tilted away.

-Kim

INFORMATION

Monthly Birthday Celebrations are held on the last Wednesday of the month @2pm for Assisted Living and 3:30 for Gardens. All friends and family are welcomed to help their loved ones celebrate.

Birthday cakes are sponsored by Beacon of Hope Hospice!

SUPPORT GROUP

Alzheimer support group is held on the 3rd Wednesday of the month @3pm

Riddle of the Month

Riddle me this... Penny has 5 children

fun.iavinash.com

Penny has 5 children.

The 1st is named January.
2nd kid is February.
Her 3rd is called March.
4th is April.

What is the name of the 5th.
