- 20th Accordion Music
- 23rd Thanksgiving
- 27th K&L Duo Music

Resident Spotlight

Jim and Hazel Wright

This month's resident spotlight is Jim and Hazel Wright! Jim and Hazel made their home at Windsor in July of 2013.

Jim was born November 22nd 1918 in New Providence, Iowa to Georgia and Samuel Wright. He grew up with one sister and two brothers on a farm outside of New Providence and Zearing. After graduating high school from Zearing, Jim worked for his father until he was drafted into the Army in 1941. He started as a 2nd Lieutenant to Commander of Fire Batter, six months later he was promoted to 1st Lieutenant, then Captain. Jim has many stories about his time in the Army and is very proud to have served his country.

Hazel Mae (Lage) Wright was born December 30, 1925. She was the youngest and only daughter of Nellie and John Lage. Hazel had four older brothers, and took on the nickname "Sister". Growing up in Hubbard, Iowa Hazel enjoyed playing basketball in school, gathering for Sunday meals with family, and going on fishing trips. Hazel continued her education and worked as a Certified Nurse in Marshalltown at the Evangelical Deaconess Hospital.

Jim and Hazel met on a blind date and were married on December 4, 1948 in Hubbard. They put down roots in Collins, Iowa in 1951, where Jim farmed the land and Hazel worked in the home. Together, they raised four children: Rebecca, Tom, James, and Janelle. They are proud grandparents to their 6 grandchildren and enjoy spending time with them when they can.

Jim and Hazel have both enjoyed golf, being active in their community and church. Jim stays active walking, making furniture, and going on road trips with the guys! Hazel is still part of her bridge groups, church circles and enjoys cooking and BINGO.

What Am I?

My power was first discovered in lodestones, which are pieces of the mineral magnetite. Lodestones were used in some of the first compasses by seafarers. My magic is a naturally occurring force of nature that is based on electricity. I am made up of atoms, and inside each atom are electrons that whiz around. It just so happens that my electrons point in one direction, an alignment that causes me to become "sticky." That is, one side of me attracts and the other side repels. What am I?

STAFF SPOTLIGHT: ABBY CLEMENT

November's Staff Spotlight is Abby Clement! Abby became a member of the Windsor family as a Resident Assistant in February of this year. Abby grew up in Cambridge and has 1 brother and 3 sisters. She currently lives in State Center with her son. When Abby isn't working she enjoys spending as much time as she can with her 2-year-old son Danny. She enjoys softball, and participates on a local slow pitch team in the summer months. Abby loves her job, and looks forward to coming to work. "I love the warm welcoming feeling as soon as you walk in, and the way the residents treat you as family!"

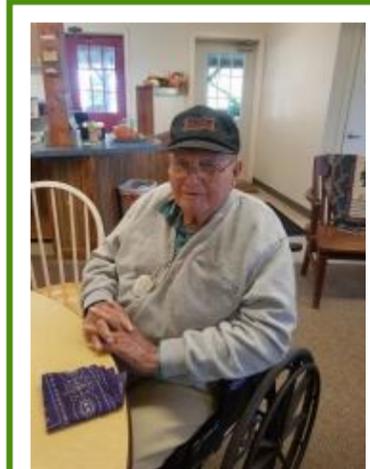

Windsor News

Please RSVP for
Thanksgiving Dinner by
Monday, November 13th!

November is here, and like so many other lowans, I have already begun to grip about the cold weather! However, it is the month of gratitude, so I decided to focus on what I appreciate out of every day! I quickly realized that gratitude changes everything. Looking through the eyes of gratitude made me more aware of the everyday miracles that surround me! I am so beyond blessed to have the life I have and all the wonderful people I get to share it with every day! I hope you take the time to be grateful today!
