"You know you are in love when you can't fall asleep, because reality is finally better than your dreams." – DR. Seuss

This Valentine's Day, we are reflecting on the relationships that are valued here at Windsor Manor. Watch our Facebook page for videos featuring our residents that are remembering their Valentines Day past, and their advice to the younger generation on how to make "love to last a lifetime." Stop by to see our Vintage 1950's and 1960's Valentine's Collection. We have many activities this month discussing the history of Valentine's Day and a "Name that famous Couple" Game.
Love to all of you!

Handwashing

Keeping hands clean through improved hand hygiene is one of the most important steps we can take to avoid getting sick and spreading germs to others. Many diseases and conditions are spread by not washing hands with soap and clean, running water. If soap and water are unavailable, use an alcohol-based hand sanitizer that contains at least 60% alcohol to clean hands.

When You should wash your hands:

Before, during, and after preparing food. Before eating food. Before and after caring for someone who is sick. Before and after treating a cut or wound. After using the toilet. After changing diapers or cleaning up a child who has used the toilet. After blowing your nose, coughing, or sneezing. After touching an animal, animal feed, or animal waste. After handling pet food or pet treats. After touching garbage

Pennies from Heaven*

Pennies From Heaven Poem that was given to Verla when her husband passed away. She decided it would be a beautiful thing to share with our Residents.

Some of our Residents got together and decided to wear their New Windsor Manor Sweatshirts. Talk about some sharply dressed people!
