Husband & Wife

A woman goes to the Doctor, worried about her husband's temper.

The Doctor asks: "What's the problem?"

The woman says: "Doctor, I don't know what to do. Every day my husband seems to lose his temper for no reason. It scares me."

The Doctor says: "I have a cure for that. When it seems that your husband is getting angry, just take a glass of water and start swishing it in your mouth. Just swish and swish but don't swallow it until he either leaves the room or calms down."

Two weeks later the woman comes back to the doctor looking fresh and reborn.

The woman says: "Doctor that was a brilliant idea! Every time my husband started losing it, I swished with water. I swished and swished, and he calmed right down! How does a glass of water do that?"

The Doctor says: "The water itself does nothing. It's keeping your mouth shut that does the trick."

The Farmer

A man asks a farmer if he can cross his farm to catch the 4:25 train.

The farmer says: "Sure go right ahead! If my bull sees you, you might even catch the 4:20!"

The Mother-in-law

Assistant: "Sir, can I have a day off next week to visit my mother-in-law?"

Boss: "Certainly not!"

Assistant: "Thank you so much sir! I knew you would be understanding."
